

# CERTIFIED SCRUM PRODUCT OWNER

**Abstract:** Certified Scrum Product Owner® professionals have been taught the Scrum terminology, practices, and principles that enable them to fulfill the role of Product Owner on a Scrum team. CSPOs are typically the individuals who are closest to the "business side" of the project. They are charged by the organization to "get the product out" and are expected to do the best possible job of satisfying all the stakeholders. CSPOs maintain the product backlog and ensure that everyone knows the priorities.

As a CSPO, you will be able to fulfill the role of Product Owner on a Scrum team. You will also have access to a 2-year membership with Scrum Alliance. Through this membership you can join local user groups, online social networks, gain access to deep discounts on gatherings, and additional member-only resources. In addition, CSPOs can use a specially designed logo to highlight their credentials.

As for formality, this experience will include:

A complete 2 day classroom session eligible for 16 PDU's and 16 SEU's

A two year membership to the Scrum Alliance

Eligibility to take the online test and online testing fees are all included as part of this session

A complete guide/workbook with extensive reference materials and exercises

Qualification to be eligible for the level 2 Certified Scrum Product Owner Course

**Audience:** This workshop is perfect and recommended to all levels and roles including Product Managers, Product Designers, Developers, Testers, Analysts, Executives, Project Managers, IT Professionals, or any role attempting to implement Scrum Product Ownership.

**Duration:** Two Days.

**Class Size:** The maximum number of students for this workshop is twenty.
