

# SAFe SCRUM MASTER

**Abstract:** Are you curious about how to coach Agile teams to deliver maximum business value at scale? The SAFe® Scrum Master course covers the tactical skills to be an effective Scrum Master in a SAFe organization. And gives you the guidance and tools you need to work effectively in remote environments with distributed teams.

If you want to become a certified scrum master with the skills to help leading companies succeed with Agile and scrum, the SAFe Scrum Master course is for you. Learn how scrum masters empower and lead Agile teams. Understand how to facilitate Agile events like iteration planning, standups, and retrospectives. And discover how to help teams plan and complete their work. You'll also learn the principles of servant leadership, so you can help develop high-performing, engaged, continuously improving teams in your own organization.

As for formality, this experience will include:

A complete 2 day online or classroom session eligible for 16 PDU's and 16 SEU's

A one year membership to the SAFe Community Platform

Eligibility to take the online test and online testing fees are all included as part of this session

A complete guide/workbook with extensive reference materials and exercises

Qualification to be eligible for the SAFe Scrum Master Certification Exam

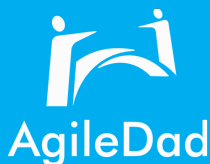

**Audience:** This workshop is perfect and recommended to all levels that could be practicing as a Scrum Master or those who interact with the Scrum Master

**Duration:** Two Days.

**Class Size:** The maximum number of students for this workshop is twenty.

*This class is available as a PUBLIC course or a PRIVATE workshop for your organization.*
